Re: Our move from Ottawa to Bloomfield

We are writing to commend Kineto for making our move from Ottawa to Bloomfield, Ontario as stress-free as possible. Your firm was recommended to us by our friends Richard and Anne Brzozowski, who were also very satisfied with your work when they moved a few years ago from Ottawa to Hillier, which is also located in Prince Edward County.

Robert Martindale was more than helpful with our several questions prior to the move, and on the actual two days of the move, both Lee and Mathew were hard-working, efficient, extremely careful, and very pleasant in the performance of their work. We would have no hesitation in recommending Kineto in the future to our friends and associates, and want to congratulate your team on their clear know-how in making moving a joy instead of a tribulation!

Yours truly,

Barbara McMullen

To: Whom it may concern,

I was very impressed as a customer of Kineto Van Lines of the moving experience I had with your field of representatives. They were professional, courteous and mostly hard working. They arrived on time, were prompt and worked diligently. They actually completed the move faster than I thought. I would not hesitate to recommend your company to people I know due to this team of movers.

This team was Louis, Joseph and Stephane.

Sincerely,

Chris Patterson

Hi Bob. This is to further our brief discussion of this morning. I wanted to take a moment to thank you and all involved in making our move a pleasurable experience at a most anxious time for me and my family.

From the moment we spoke about you visiting for a quotation to the time the truck pulled out of the driveway at our new home the whole process went as smoothly as could be hoped for.

The staff that you had assigned to do the task, Lee, Robert and Art, were punctual, well groomed, efficient and behaved in a most professional manner.

As I look back maybe I should not have taken the insurance as the care given by this particular crew to each chore was as if they were moving their own personal property. That statement of course is only to re-emphasize the care they took.

Again, thank you Bob for your assistance and professionalism, and please pass on my thanks and congratulations to Lee, Robert and Art for a job well done. I would, and will, be pleased to recommend Kineto Van Lines to anyone I come across looking for a move whether residential or commercial

Dear Kam,

I must apologize for the delay in writing to you to thank both yourself and your employees for making our move from Orleans to Oakville a pleasant stress free experience. Your employees who conducted the move were polite, hard working and very efficient in the performance of their work.

We would have no hesitation in recommending Kineto Van Lines and have already done so to a neighbor Mr. Jim Jamieson on Glen Knolls Dr. Again thank you for your assistance in making our move a successful one!

Dear Sir/Madame,

As you know, your company moved our household goods from Nepean to Kingston on the 9th of July 2004. This letter is to inform you that everything went well, better then expected. We were very please and satisfied with your service. All thanks to your hard working crew of Richard, Kevin, Craig lead by Lee. We were particularly impressed by Lee's manner and professional knowledge on the job, especially in storing everything into a relatively confined space. They deserved praise.

Yours sincerely,

Re: Local Move, Butler Family, 11 Nov 2004

I felt compelled to send in a note to complement the team that moved my wife and I recently from our home of twenty-four years.

Not only did the move go forward efficiently the 'crew' was amazingly good humoured and pleasant to deal with regardless of the effort they were putting out. And quite an effort they put out, pausing here and there only momentarily to ensure that our goods were to be moved correctly and safely.

They emptied one house and had the other set up in what can best be described as a blink of an eye.

The only unfortunate event of the day is that they left, leaving me unsupervised and in a position to cause the only damage of the day.

My compliments to the crew for a job well done, and based on their performance, I would not hesitate in recommending your firm.

Sincerely

Tony Butler
